EVERFI Announces 2 New Courses—The Compassion Project and Honor Code

[EVERFI](#) (everfi.com) is pleased to announce two new courses just in time for the 2018-2019 school year—[The Compassion Project](#) and [Honor Code](#).

[The Compassion Project](#) is the first comprehensive, no-cost program designed to help educators facilitate lessons around fundamental Social Emotional Learning (SEL) skills. This 15-week curriculum combines engaging animated videos, classroom-based lessons, and digital activities into a toolkit that any educator can use. [The Compassion Project](#) is designed for students in grades 2-4 and contains 15 standalone lessons, each approximately 20 minutes.

Positive school climates are critically important for students to achieve their full academic and personal potential. But bullying can negatively impact students' sense of social, emotional and physical safety – key components of a positive school climate. [Honor Code](#) takes a practical approach to bullying prevention by empowering students to create change, whether they're engaging in bullying, on the receiving end of it, or witnessing it in their school. [Honor Code](#) helps them identify their unique talents, grow their resilience in the face of adversity, and build strong connections with others. The same skills students learn to discourage bullying today can also help them become the influential leaders of tomorrow.

[Honor Code](#) is recommended for use with students in grades 8-10 and includes six standalone lessons, taking approximately 10 minutes each.

As always, [all EVERFI resources](#) are available to Montana teachers **at no cost**.

Reach out to Sean Thomas at stthomas@everfi.com for more information.
