January 23, 2019

### Monday, January 28, is Deadline to Register for FREE Regional Trainings for CTE Manager

The Career and Technical Education Division of the Office of Public Instruction would like to invite you to attend one of the five regional trainings being provided on the new work-based learning management system, **CTE Manager**.

This online system will allow teachers, employers, students, parents and administrators to better monitor the work-based learning that is occurring in and out of classrooms across Montana. We at the OPI are rolling out the CTE Manager on a state wide, two-year trial, to help local programs emphasize the importance of work-based learning for all CTE students, and provide an easy way of tracking students' progress and skill growth.

This *free* training will be for Career and Technical Education Teachers, Administrators, School Counselors, or Work Based Learning Coordinators to learn about the CTE Manager Online system. The training will provide them with information on how to use the system, how to train teachers, as well as student and employers. These will be regional trainings provided to schools at no cost. We realize that not all of your teachers may be able to attend, but we encourage every school with a Career and Technical Education Program to send a representative to one of the trainings. Those in attendance will receive four hours of OPI renewal units.

### **Seeking Partnership Highlights for CTE Promo Video to be Used for Montana Rotunda Activities February 26 & April 3**

The Montana Office of Public Instruction's Career, Technical and Adult Education Division is seeking highlight local Career Technical Education programs and/or Career & Technical Student Organizations who are working with local business and industry partners, including non-profits and community organizations..

The video project will be used for the Rotunda events held during the 2019 Montana Legislature session on February 26 and April 3. The event in February will focus on CTSO's and the April event will focus on Industry connection in the classroom. The premise for the video will be focused on highlighting a particular and specific story in each CTE division that brings things full circle, meaning connects teachers, students, parents, industry etc.

For example, Darby High School's Industrial Trades & Technology Education program has partnered with Measure Nets (a local fly fishing net company sold in the state of Montana) to make the wooden frames for their fishing nets. Once the net is sold in the local fly shops around Montana, part of the revenue then goes back into the high school program for additional funding for new equipment. This in turn shows students making a difference in their community empowering others to do the same and possibly enroll in CTE

The video will be compiled in to a montage for a larger 10-minute video used at the Rotunda events, then further broken out to promote each of your divisions individually as well. Each of program/CTSO videos will be about 2-3 minutes in length highlighting the stories and each CTE divisions as a whole. The videos will be promoted on the OPI website and other platforms.

The production of the videos are being coordinated by Austin Schweitzer, Marketing Coordinator for the Career, Technical and Adult Education Division. If you are interested in sharing the great projects and accomplishments of your program and your students, please let me know.

If you have questions, please feel free to contact myself or Austin directly at [austin.schweitzer@mt.gov](mailto:austin.schweitzer@mt.gov).

### **Fun Facts and Trivia**

Sarajevo is the capital city of Bosnia and Herzegovina.

Founded in 1263, Sarajevo, then a citadel known as Vrh-Bosna, fell to the Turks in 1429 and was renamed Bosna-Saraj, or Bosna-Seraj.

During the Roman Empire, Sarajevo, together with Bosnia, was a border city between the Eastern and Western Roman Empires.

In 1878, it became a province of Austria-Hungary when the Empire took over Bosnia and Herzegovina in 1908.

The city-wide tram service was the very first in Europe, beginning in 1885; locals proudly insist that the Austro-Hungarians modelled Vienna's tram system on theirs.

On the June 28, 1914, World War I was triggered by the assassination of Archduke Franz Ferdinand of Austria with his wife Sophie, Duchess of Hohenberg, in Sarajevo by Gavrilo Princip, a member of Young Bosnia and one of a group of assassins organized and armed by the Black Hand.

Franz Ferdinand are a Scottish rock band formed in Glasgow, Scotland, in 2002.

The song "Take Me Out", on the band's first album, was the second single to be released by the band.

The single release of "Take Me Out" came with the B-side, "All for You, Sophia", based on the assassination of Archduke Ferdinand and his wife, whose name was Sophie, not Sophia; the band chose the name Sophia rather than Sophie to give the song a better ring.

"Take Me Out" also mentions the assassin Gavrilo Princip, the Black Hand, the location of the Appel Quay and "Urban" (Franz Urban), the name often mistakenly given to Leopold Lojka, the driver of the car.

From 1918 until 1992, the country was a part of the former Yugoslavia; and after a 3-year long war, Bosnia and Herzegovina proclaimed independence

In the last 100 years, Sarajevo has been a member of Ottoman Empire, Austro-Hungarian Empire, Kingdom of Bosnia, Independent state of Croatia, Yugoslavia, and at the end Bosnia and Herzegovina.

Sarajevo is the seat of an Orthodox Eastern metropolitan, a Roman Catholic archbishop, and the chief ulema of Bosnia's Muslims,

The name "Bosnia" comes from an Indo-European word Bosana, which means water.

Sarajevo was the scene of several important battles between Allied resistance fighters and the Germans in World War II, during which the city sustained considerable damage.

Established in 1995 during the Bosnian War, Sarajevo Film Festival has become the largest and most famous film festival in the Balkans and South-East Europe.

The Guinness World Book of Records recognized Sarajevo for achieving the longest single line of moving bicycles comprised of 984 participants on June 14, 2015 during Sarajevo's Grand Prix.

Sarajevo has 10 bridges over the river Miljacka. But the most significant is the Latin bridge, because right next to it the assassination of Archduke Franz Ferdinand and his wife happened.

Sarajevo has lots of fountains sprinkled all over the city and the water is clean and drinkable.

The Sarajevo Tunnel of Hope is a man-made underground tunnel connecting the city of Sarajevo with the United Nations 'safe place' at the airport.

The Tunnel of Hope was dug by citizens during the Siege of Sarajevo from both sides of the city and took four months to complete. This tunnel allowed for the passage of medicine, food, and artillery which helped the locals survive and the army fight during the siege.

Cevapi is one of Bosnia's main dishes—a naan type bread filled with small sausages (also popular in Slovenia), sour cream and fried onions.

Another popular dish is Burek, a meat or vegetable filled pastry snakes served on a metal plate.

The first Winter Olympic Games in Communist country were held in Sarajevo in February 1984; winning over Sapporo, Japan and Gothenburg, Sweden.

The Opening Ceremonies for the 1984 Winter games were held in Koševo City Stadium which is now home to football club FK Sarajevo and the Bosnia and Herzegovina national football (soccer) team.

The Olympic flag was raised upside down during the opening ceremony by mistake.

During the 1984 Winter Olympics, Scott Hamilton scored men's gold in figure skating for the United States and Bill Johnson became the first American to win an Olympic downhill event.
