

The Wednesday Reader

May 6, 2020

Please note: the May 20 edition of the Wednesday Reader will be the last one for the 2019-2020 school year.

New Dates for ACTE Region V Conference Announced

The [ACTE Region V Conference](#) previously scheduled to be held last month is now scheduled for October 28-30, 2020.

The conference is still schedule to be held in Lake Tahoe, Nevada. For more details and updates, please check the ACTE Region V website at acteonline.org/state_region/region-v.

Business & Marketing Montana Career Pathways Sent Out for Review and Approval

Over the past couple of weeks, following the review of the Business & Marketing Participation Reports from 2019-2020 school year, Pathway Approval Form(s) for Montana's Business & Marketing Education programs' Montana Career Pathways were sent out via email.

The courses within the Pathway Approval Form are those most closely related to those in the OPI's Montana Career Pathways' [Secondary Programs of Study](#). In reviewing the CTE Participation Reports and putting the Pathway Approval Forms, I have tried to ensure all courses taught are listed in at least one pathway.

If your program has more than one pathway, the Excel sent in the email will have a sheet for each pathway. All pathways require at least one (1) credit/two (2) semesters of foundation coursework and at least one (1) credit/two (2) semesters of elective, or advanced, coursework.

If you would like to view all the courses within your CTE Participation Report, please let me know. Keep in mind the data in this year's CTE Participation Reports cannot be changed, but the data can be updated when information is entered into TEAMS for the 2020-2021 school year.

To finalize the Pathway Approval Form(s), please complete the following steps.

1. Review the courses and related information listed in the form and note any necessary updates/corrections.
2. List any additional courses offerings not offered this year, but may be offered on an alternating/rotating schedule basis.
3. Include any Work-Based Learning experiences provided by the program &/or the school (a [Work-Based Learning Manual](#) can be downloaded from the OPI website at <http://opi.mt.gov/LinkClick.aspx?fileticket=GyycPUtcJ4M%3d&portalid=182>).
4. Identify any Dual Credit/Concurrent Enrollment course offerings and/or Industry Recognized Credentials available within the program area.

When completed, please key your name, or the name of the individual who approved the data within the form, and the date.

Save a copy for your records and email the Excel file/form(s) back to me at eswenson@mt.gov by Saturday, May 30.

Also, beginning this spring, CTE concentrators for Perkins reporting will be identified by Montana Career Pathway instead of CTE program area. Therefore, please share your approved pathway(s) with those who work with your school/district Perkins data as these will be the available pathways for next year's reporting. All approved pathways from the 2019-2020 school year for a district will be listed in the Perkins E-grant application for the 2020-2021 school year.

Thank you for your time to review and complete the Pathway Approval Form(s) and please let me know if there are any questions or if any additional information is needed.

Register Today for the Montana Business Education Summer Update 2020—Sessions in Billings, Helena, & Kalispell

The 2020 edition of the Montana Business Education Summer Update will be held Thursday, July 30 in Billings at Skyview High School; Tuesday, August 4 in Helena at Capital High School; and Thursday, August 6 in Kalispell at Glacier High School.

Topics for the Montana Business Education Summer Update 2020 will include Active Activities for Accounting; Cybersecurity in Your Curriculum using Free Online Resources; Montana Business Education & CTE Curriculum Updates; and Carl Perkins & Montana Career Pathways.

The Montana Business Education Summer Update 2020 is a free, one-day professional development event for Montana's Business & Marketing Education Professionals, pre-service teachers, and Business Professionals of America and DECA chapter advisors. Up to six (6) OPI renewal units will be available.

Registration is required and can be completed at bit.ly/MTBusEdUpdate2020. Bringing your own device (BYOD) is recommended.

For questions, please contact Montana Business Education Specialist Eric Swenson at eswenson@mt.gov.

Jump\$tart 2020 National Educator Conference in Atlanta, November 7-9—Attend for Free via Scholarship Program

The Jump\$tart Coalition for Financial Education (jumpstart.org) is excited to announce details for the [2020 National Educator Conference](#) to be held in Atlanta, Georgia, November 7-9, 2020. The National Educator Conference is the nation's premier professional development event for PreK through 12th grade teachers, dedicated to financial education in the classroom.

For teachers, the [National Educator Conference](#) (jumpstart.org/jsnec20) is an all-scholarship event, offering tools and information they can use in their classrooms as soon as they return to school. For Jump\$tart partners and other financial literacy stakeholders, the Jump\$tart National Educator Conference provides a platform to share their resources and expertise with the educators who need and want it most. And for all participants, it's a warm and invigorating opportunity to network, collaborate, re-charge, and celebrate each other's unique contribution to "*financial smarts for students*."

This year's conference will be November 7-9, 2020, at the Loews Atlanta. Thanks to generous underwriters, sponsors, and scholarship providers, Jump\$tart expects to host 375 classroom teachers from across the country along with more than 100 speakers, exhibitors, and other stakeholders.

To attend the 2020 Jump\$tart National Educator Conference, all teachers must complete and submit a [scholarship application](#) by August 21, 2020 (unless you have received a scholarship from one of our participating Partners or State Coalitions.) There is no self-pay registration option.

Apply now for your scholarship to attend at jumpstart.org/what-we-do/nec/2020-nec/scholarship-application.

Computer Science Professional Development Opportunity at MSU-Bozeman – Funding Available for Teachers

Montana State University (MSU) will offer a Master of Science in Science Education (MSSE) course for Montana teachers, "Computer Science in the Classroom: Joy and Beauty of Data," July 6-10, 2020, through MSU's campus in Bozeman.

The 2-credit course is intended for 7-12th grade teachers who want to learn how to incorporate computational ideas in the classroom. In addition, teachers who take the course will be introduced to the broad area of data science and will extend their knowledge of the Python programming language. High school teachers who complete the course can potentially teach CSCI 127, The Joy and Beauty of Data, as a dual enrollment course.

The course builds upon the pre-requisite course, "Joy and Beauty of Computing," previously offered at MSU (2014-2017), the University of Montana (2017), Montana Tech (2018) and Salish-Kootenai College (2019). The Joy and Beauty of Computer course will be offered this summer at Montana State University-Billings,

<http://hs.umt.edu/cs/research/reimer/NSF%20CS10K%20Project/Professional%20Development/default.php>.

The [Joy and Beauty of Data](#), CSCI 582, will be taught by Hunter Lloyd, Professor, Gianforte School of Computing, Montana State University.

Support for Montana teachers is available. For more information and how to apply, please contact, Holly Thompson, MSSE Program Officer, at 406. 994.7485 or msse@montana.edu.

Get ArcGIS Mapping Software for Free for Your CTE Classrooms

Career and technical education (CTE) classrooms can take advantage of Esri's offer of software to schools and clubs. The [ArcGIS for Schools Bundle](#) is available at no cost for K–12 classroom instruction.

ArcGIS is a platform with desktop, web, and mobile apps for collecting data, analyzing spatial and nonspatial attributes, and communicating with dashboards and stories. ArcGIS is about supporting the best decisions and fostering understanding. Esri makes ArcGIS, serving over 350,000 organizations globally. It is the most widely used GIS in the world. GIS use is already implemented in the career and technical education (CTE) standards of at least 17 states—from a variety of career clusters.

Equip your students with GIS skills needed for future career paths. [Request free software today.](#)

Economic Impact Surveys for Content Standards Revision

Back before the global pandemic took over our lives, the OPI was seeking feedback on the potential economic impact of implementing revised or new standards for Computer Science, Career and Technical Education, Library Media, Social Studies, and Technology Integration.

We would greatly appreciate additional responses to the surveys for each of the five sets of standards. We have shortened the surveys to save you time! Responses will be due by June 30, 2020.

Access the surveys on the K-12 Content Standards webpage:

Looking for FREE Lesson Plans, Project Ideas, &/or Resources? Checkout CTE Online

[CTE Online \(cteonline.org\)](http://cteonline.org) is a community of Career & Technical Educators who share curriculum resources, lesson plans, and general information—all for free.

CTE educators can create an account for free and select groups, or communities, to belong to based upon content taught by career cluster. Registered members can also participate in online professional development events.

Visit cteonline.org to sign up for free and start exploring new materials and gathering new ideas. Also, be sure to check out [CTE Online's](#) CTE Distance Learning newsletter for additional lesson plans and e-learning opportunities.

Cengage Offers Free Access to Digital Learning Materials, Other Resources

Cengage, an education and technology company, is offering free access to its digital learning materials and platforms, as well as other resources, for those impacted by COVID-19.

"The health and safety of our employees and customers around the globe are paramount. Millions of them have had their lives thrown into turmoil as a result of this unprecedented public health crisis," said Michael E. Hansen, CEO, Cengage.

"We want to do everything we can to support students and educators as they shift to online learning environments," Hansen continued. "Each of our businesses is taking a tailored approach based on the individual circumstances of their customers. For example, in the United States, we are giving college students at impacted campuses free access to our eTextbooks and digital courseware for the remainder of the Spring semester, regardless of whether their instructor uses Cengage materials. In K12, we are also offering free access to our learning platforms and eBooks."

At the K-12 level, [National Geographic Learning \(ngl.cengage.com/assets/html/covid19\)](http://ngl.cengage.com/assets/html/covid19) is providing all U.S. K12 teachers with free access to its learning platforms and eBooks. Additionally, Cengage is extending access where it is needed for current digital users and providing training and support for teachers transitioning to online teaching.

Visit ngl.cengage.com/assets/html/covid19 for more details and to request access to materials and resources.

Early-Bird Registration Now Open for ACTE's CareerTech VISION 2020 Conference in Nashville, December 2-5

The Association for Career & Technical Education's (cteonline.org) [CareerTech VISION 2020](#) conference will be held December 2-5, 2020, in Nashville, Tennessee, at the Gaylord Opryland Resort & Convention Center.

Early-Bird registration is current open and will end July 10, 2020. The ACTE-member Early-Bird registration is \$395. After July 10, the rate increases to \$445.

Room rates at the Gaylord Opryland Resort & Convention Center are \$198 plus taxes and fees. A link to book rooms will be provided within your VISION registration confirmation.

For complete CareerTech VISION 2020 details, visit www.careertechvision.com.

New Perkins V Information Section Added to OPI CTE Website

The Office of Public Instruction has a NEW Perkins V section on the [CTE webpage](#) to help you develop your Perkins V Comprehensive Local Needs Assessment for the upcoming 2020-2021 Perkins fiscal year.

This [link](#) will take you to the resources listed below.

There are several new posts:

--Are You Perkins V Ready? (A timeline to keep your district on track)

--A fillable-file Comprehensive Local Needs Assessment (CLNA) Manual. Please save your work as this will be uploaded to E-grants as the main section of your E-grant for coming year.

--Labor Market Dashboard designed by the Montana Department of Labor using Montana Career Pathways

--Montana's 16 Statewide Career Pathways website

--Templates for each pathway with possible course combinations

--New Work-based Learning Manual

--Course Codes to use when reporting Work-based Learning

--Dual credit courses for specific pathways and college campus contacts

Questions regarding Perkins V may be sent to Renee Erlandsen, rerlandsen@mt.gov, or call her at 406-994-6986.

Looking Ahead to June . . . Computer Science Professional Development Events in Great Falls, Billings, & Missoula

Four computer science professional development courses for Montana's high school teachers have been announced for Summer 2020.

Generous stipends and travel support is available. To register, please visit <https://tinyurl.com/y5446nl6>.

If your registration is accepted, there is no additional fee for you to attend. A limited number of participants will receive travel support and stipends, so you may be responsible for covering the cost of travel if you do not receive funding. Outreach activities are required in order for you to receive the full stipend (details follow upon registration acceptance). Registrations completed by March 1, 2020 will receive priority consideration for funding.

[Mobile CSP](#) will be offered June 15-19, in Great Falls. Based on the College Board's emerging Advanced Placement (AP) Computer Science Principles curriculum framework for introductory computer science. Students learn programming and computer science principles by building socially useful mobile apps using MIT's App Inventor. Learn more about the Mobile CSP curriculum at mobilecsp.org. For questions, contact Stacy Dolder at stacy_dolderer@gfps.k12.mt.us.

Joy and Beauty of Computing (JBC) will be available June 15-19, in Billings. The course provides an overview of the world of computing, as well as a gentle introduction to computational thinking using the Python programming language. It examines the computing field and how it impacts the human condition, and introduces exciting ideas and influential people. This course can be taught for dual enrollment. Contact Jeff Braun, jb Braun@mtech.edu, with any questions.

Python Modules for Math and Science will be June 22-26, in Missoula. Learn how to integrate modules that emphasize Python programming and computational thinking into high school science and math classes. Modules are fully developed and ready to go. They vary in length and difficulty. Opportunities to develop custom modules for your own classes will be provided and supported. For questions or more information, contact Yolanda Reimer at yolanda.reimer@mso.umt.edu.

Game Programming will take place June 22-26, in Missoula. The training will focus on 2D and 3D game development using [Unity](#). Learn more about Unity at unity.com. Please contact Hunter Lloyd, hunter.lloyd@montana.edu, with questions or for more information.

Fun Facts and Trivia

Cloudberries are a variety of fruit originating in the northern areas of North America, Europe and Russia, and they are found in cold, boggy, mountainous regions.

Cloudberries are also known as 'knotberries', 'low-bush salmonberries', 'evrons', 'averins', and 'bakeapples'.

The cloudberry grows on a plant with the scientific name *Rubus chamaemorus*, and it is from the family Rosaceae, the family of roses.

Cloudberry are made up of small bubbly drupelets, numbering from 5 to 25, and they are not unlike a raspberry in appearance and size, with a diameter of 0.4 to 0.8 inches.

When ripe, the color of a cloudberry is typically an orange to yellow color, sometimes with a tinge of red, while the unripe fruit is red in color.

The cloudberry is generally considered a wild berry, as it is not commonly farmed because of its unique growing conditions; although in recent years, cultivation of the berry for commercial purposes has increased.

The texture of a cloudberry is juicy and perhaps creamy, and it has a tart to sweet taste depending on its ripeness.

Cloudberry are sometimes eaten fresh, with cream, ice-cream or other dairy-based desserts, but they are more commonly made into jam, fruit tarts or pies, and beverages, and they are often purchased frozen as they do not store well.

Cloudberry are extremely high in vitamin C, are a good source of antioxidants, and they also contain other vitamins and minerals.

Cloudberry have a unique component that most fruits lack, omega-3 and omega-6 fatty acids.

The HDL, or good cholesterol, in cloudberry can actually help balance your cholesterol levels and reduce the strain on your cardiovascular system.

Finnish, Norwegian, Scottish, Alaskan and Canadian communities commonly utilize cloudberry in their cuisine, and they are considered a luxury in some areas.

The Finnish version of the 2002 two-euro coin features cloudberry.

In Sweden, cloudberry and cloudberry jam are used as a topping for ice cream, pancakes and waffles.

In Norway, cloudberry are mixed with whipped cream and sugar to make a dessert called Multekrem.

Cloudberry yoghurt is available in Norwegian grocery stores.

In Alaska, cloudberry are referred to as 'low-bush salmonberry,' though the fish don't eat the fruit.

Eskimo Ice Cream is what is made when cloudberry are mixed with sugar and seal oil or caribou or reindeer fat by Arctic Yupik, indigenous peoples in areas of Alaska and Northeastern Russia.

IKEA sells cloudberry jam, or *sylt hjorton*, in its stores and on the IKEA website.

Issues of the Wednesday Reader are archived on the Montana Business Education Association (MBEA) website at www.mbea.info. The Wednesday Readers are under the Newsletter section and listed most-recent first.
